The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1 and 3 reference to “suitable for oral administration once a day” is considered indefinite. The claims fail to clearly point out what is included and excluded by the claim language. The word suitable renders the claim indefinite meaning it may or may not be a once a day single dosage form. Suitable does not clearly define the claimed invention as an intermediate release dosage form administered once daily.

In claims 2 and 3, which recite “3 phases” the subject matter does not clearly define the absorption state of the third phase and the claims are therefore considered indefinite. Claim 2, which is dependent on claim 1 does not define nicotinic acid absorption for the third phase. Claim 3 recites 3 phases but only defines the percentage of nicotinic acid absorbed for the first and second phase.

Art Unit: 1615

Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-3 are rejected.
